Good Morning Jon,

SKYWARN SPOTTER NUMBER: COL-001

Skywarn Recognition Day: December 2, 2017

We plan to operate at the NWS Jacksonville on **December 2 from approx 9am-ish until approx 6pm**. We will operate 2meter, as well as 40, 20 and 15meters, and are looking for operators to help make contacts. Also, we will have a Skywarn meeting from approx 11am to 12noon. At this meeting, we will have a staff member from the NWS discuss the weather events in 2017 and how Skywarn can better assist the NWS in future weather events. We will also discuss the results of the 2018 Officer Nominations and vote for 2018 Officers.

We are also looking into the possibility of having a cookout at the NWS with the NWS staff for lunch. This will be a great day to come by the NWS and operate the radio, meet the NWS staff and get to meet other Skywarn members.

If you plan on attending, please reply to this email so that we can get an approx count -- Also, let us know if you want to operate a radio, so we can schedule that was well. We look forward to seeing you there!

Scott Roberts, KK4ECR
President, Jacksonville Skywarn Association
